CARGO CARRIERS[®]

Instructions for Replacing the StowAway Max Carrier Gasket

REV0320

For proper adhesion apply gasket when temperatures are **60 to 80 degrees**. To apply the new gasket:

1. Remove your old gasket(s)
2. Clean the gasket surface thoroughly with a rag and rubbing alcohol to remove dirt and adhesive residue
3. Remove the adhesive tape and apply the new gasket to the box as shown in the image below.

Refer to the following images for proper gasket placement

Top-Down View:

Note: The new gasket is outlined in red in this picture.

The placement of the Gasket on the right side of the carrier should mirror the placement shown here on the left side.

Please contact **StowAway Customer Service** at (800) 943-5377 with any questions.
